National Kinship Care Forum

23 August 2018

(the day after the ACWA Conference)

Australian Human Rights Commission, 175 Pitt Street Sydney

Attendance is free but registration will be essential

- Kinship care now provides more statutory out-of home care than foster care across Australia, but how much do we hear about policy and practice development?
- What's happening in other States and Territories?
- What about the large number of children in informal kinship care?
- What's going well, and what are the problem areas? How can we make a difference?

Hear from government and non-government representatives about emerging practices and the state of play across the country. Services will be invited to discuss the challenging issues and help shape future policy and practice development, coming together to better society's support for kinship carers and vulnerable children.
